DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Robert Skolnick on 24 January 2005.

The application has been amended as follows:

IN CLAIM 1:

In line 4, after "end" delete the period and add --; the connector assembly further comprising a second bag for enclosing said connector and said over-wrap bag for maintaining the sterility of said both ends of said connector assembly.--

CANCEL CLAIM 2

Allowable Subject Matter

2. Claims 1, 3-7 and 10-15 are allowed.
3. The following is an examiner's statement of reasons for allowance: The prior art fails to disclose or suggest the device claimed by applicant. In particular, the prior art fails to suggest a one-piece connector with a flange located intermediate the two ends

Art Unit: 3762

of the connector, and an over-wrap bag that is attached to one side of the flange and maintains the sterility of one end of the connector. The closest prior art of record, US 4,253,500 to Williams, fails to disclose a connector with an intermediate flange, that the bag is connected to the flange, and a second over-wrap bag. Furthermore, the bag fails to maintain the sterility of the connector, rendering the instantly claimed device patentable over the Williams disclosure.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure:

- a. US 6,080,138 Lemke et al
 - i. IV protector with a zippered bag closure
